

## THE QUALITY OF THE AIR YOU BREATHE DEPENDS ON THE CLEANLINESS OF THE AIRDUCT SYSTEM

VENTILCLEAN IS THE SOLUTION TO SANITISE ALL YOUR VENTILATION DUCTS. THE QUALITY OF THE AIR YOUR BREATH DEPENDS ON THE CLEANNESS OF YOUR AEROLIC INSTALLATIONS BUT TODAY MORE THAN 60% OF ALL INSTALLATIONS ARE POLLUTED. THIS IS WHY VENTILCLEAN HAS MADE THE CLEANING OF YOUR VENTILATION SYSTEM HIS PRIORITY.

### MICROBIOLOGICAL DIAGNOSIS :

**Do you know that every human being inhales about 15 000 liters of air each day ?**

- Research and identification of the pathogenic agent
- Estimation of the microbiological level of the air
- Particle analysis and checking
- Measure of the air flow

### VIDEO DIAGNOSIS :

**Nowadays 2 installations out of 3 are really clogged with filth**

- We can visualize the situation and make pictures of it
- By using the remote controlled video robot
- We can guarantee you the result
- Through a video report
- Through a picture report

### CLEANING AND DECONTAMINATION :

**Our teams are specialists in different fields of activity**

- Pharmaceutics
- Hospitals
- White room labs
- Industries
- Tertiary sector
- Clinics

### WE GUARANTEE THE RESULTS – BEFORE / AFTER :
